EDUCATION

Texas A&M University, B.S. in Computer Science

August 2026 – May 2030

Relevant Courses: CSCE 181 Intro to Computing, CSCE 120 Design and Concepts, ENGR 102 Engineering Lab I, MATH 251 (Engineering Math III)

SKILLS

Programming Languages: Dart, Python, Java, C++, HTML/CSS, Javascript, React, Flask

Technologies & Tools: FlutterFlow, Firebase, Streamlit, Git, GIS, SAP, AI/ML, Chatbots, Airtable

Languages: English (native), Spanish (proficient)

WORK EXPERIENCE

Civics Unplugged — Fellowship Admissions Associate

June 2026 – September 2026

- Built admissions process for the Civic Innovators Fellowship, including designing application questions, rubric, and selecting a new platform to manage 1,200+ applicants. Led and trained a team of 4 interns to read and score submissions, and produced a final demographic report to guide leadership decisions.

JPMorganChase — Software Engineering Intern (Volunteer)

June 2026 – August 2026

- 8-week internship building an AI-powered [Robo-Advisor](#) web application
- Built full-stack features in React, Flask, and Python: stock prediction, watchlists, portfolio recommendations, and a risk profiling questionnaire
- Trained a Random Forest ML model on historical Yahoo Finance data using technical indicators to predict short-term stock movements

Sierra Digital Inc — Sustainability & Enterprise AI Internship

June – July 2025

- 3-week internship. Built a [Sustainability Compliance Chatbot](#) using HTML & CSS to help businesses adopt eco-friendly practices and meet regulations. Suggestions drawn from a library of 50+ environmental regulations. Supported company research on SAP technologies.

AI-Powered Nonprofit Consulting Extern, YouthBuild

July 2026 – September 2026

- Used AI tools to analyze donor data and build donor matching recommendations for YouthBuild's fundraising strategy. Delivered findings via [final client presentation](#), applying responsible AI practices under professional mentorship.

GIRL SCOUT GOLD AWARD

- Built [ThisIsFine](#), a web-based disaster preparedness game, in partnership with Fort Bend County's Office of Homeland Security & Emergency Management; featured on the county's official [Hurricane Resources Page](#)
- Reached **5,000+ youth** across 37+ Fort Bend ISD workshops with six gamified disaster scenarios teaching real response steps, built using FlutterFlow, Dart, CSS, and Firebase
- Drove a **91% measurable improvement in preparedness** among users, validating the game's real-world impact
- Awarded a **\$400 grant from The Contribution Project**, funding 250 preparedness kits distributed directly to kids at workshops
- Presented at the **2026 READY Fort Bend Expo** and tabled at Back-to-School Events alongside Fort Bend Emergency Management
- Invited as [alum speaker at Quail Valley Middle School](#) to guide students through their Texas Performance Standards Project
- **Featured in blogs with [The Contribution Project](#) and [Girl Scouts](#)** sharing the project's origin story

Honors & Awards

- Girl Scouts Gold Award, The Contribution Project \$400 Grant Awardee, Girl Scouts \$1,000 Emerald Circle Scholarship Winner, GSUSA Gold Award Scholarship of \$5,000 (One recipient per Council), Fort Bend County Proclamation Award from Regional Courthouse for ThisIsFine
