Education

Texas A&M University — May 2029
Bachelor of Science in Computer Science — *College Station, TX*

- Current Coursework: CSCE 120 Program Design and Concepts (**C++**), ENGR 102 Engineering Lab I (**Python**), CSCE 181 Introduction to Computing, MATH 251 Engineering Math III
- Clubs: Aggie Women in Computer Science, Aggie Coding Club, Product@TAMU (Project Team Lead)

Skills

Languages: Python, C++, Java, Dart, JavaScript, HTML/CSS
Frameworks and Tools: React, Flask, Streamlit, FlutterFlow, Firebase, Git, Figma, Airtable
Spoken Languages: English (native), Spanish (proficient)

Experience

JPMorganChase — Jun 2026 - Aug 2026
Software Engineering Intern & Scrum Master — *Houston, TX*

- Built an AI-powered Robo-Advisor web app in **React, Flask, and Python**, including stock prediction, watchlists, portfolio recommendations, and a risk profiling questionnaire
- Trained a **Random Forest** model on historical Yahoo Finance data, using MACD, SMA20, SMA50, RSI, Volatility, and more to predict short-term stock movement (68% accuracy on held-out data)
- Ran sprint planning and standups as Scrum Master, and wrote requirements as Business Analyst for a 4-person team

Sierra Digital Inc. — Jun 2025 - Jul 2025
Sustainability and Enterprise AI Intern — *Houston, TX*

- Built a **Sustainability Compliance Chatbot** in Javascript, HTML and CSS that gives businesses eco-friendly practice suggestions pulled from a library of **50+ environmental regulations**
- Researched SAP technologies for the company's sustainability team

Civics Unplugged — Jun 2026 - Sep 2026
Fellowship Admissions Associate — *Remote*

- Designed the application questions and scoring rubric for the 2026-2027 Civic Innovators Fellowship
- Built and owned the full application, grading, and communication workflow in **Airtable** for **500 applicants**, replacing old processes and saving the company **$15,000** per year
- Trained and led **4 interns** to read and score submissions, then produced a demographic report for leadership

Projects

ThisIsFine (Founder) | *FlutterFlow, Dart, CSS, Firebase* — *Girl Scout Gold Award*

- Built a free web-based natural disaster preparedness game solo, with **six scenarios** that teach kids real response steps
- Partnered with Fort Bend County's Office of Homeland Security and Emergency Management, and the game is featured on the county's Hurricane Resources page
- Ran **37+** Fort Bend ISD workshops reaching **5,000+ youth**, with a **91%** improvement in preparedness quiz scores
- Won a **$400 grant** that funded **250** preparedness kits, and presented at the 2026 READY Fort Bend Expo

First Line | *ElevenLabs, React, TypeScript, Node.js/Express, PostgreSQL, Render, Tiger Data, Backboard, Gemini* — Oct 2026

- Team built a full-stack voice simulator in 24 hours for crisis line volunteers to practice with AI callers
- Designed the PostgreSQL schema on Tiger Data for session history and readiness data
- Integrated Backboard so callers remember volunteers across sessions and created full demo video with Figma Motion

Honors and Awards

- University of Houston CodeRed Orion **Hackathon Winner** - Best Use of ElevenLabs
- Girl Scouts Gold Award | GSUSA Gold Award Scholarship (**$5,000**, one recipient per council) | VIP WIT **Scholarship**
- Girl Scouts Emerald Circle Scholarship (**$1,000**) | Fort Bend County **Proclamation** Award for ThisIsFine
